Finishing

1. Sew two sides of mouse body together from 'tail end' to 'nose end' (making sure your stripes match up) leaving a hole for stuffing
2. Insert stuffing (and optional squeaker and catnip) into mouse body.
3. Finish sewing body right up to the tip of the nose.
4. Sew on ears using cast on yarn ends.
5. Embroider nose with pink yarn, running end of yarn through body and out of 'tail end' to form tail.
6. Tie knot at end of tail.
7. Embroider eye and square eyepatch with band. Eyepatch band should run from left ear, across his face to first black stripe under his chin.
8. Greet your new roguish rodent with a cheery "Yaaaaaaaarn, me hearty!" and then launch him at the nearest cat.

Wrap squeaker and catnip in stuffing before inserting to make sure they're squidgy and don't make your mouse lumpy.
